August 24, 1999

Dear Sec'y Glickman,

While I support a review of the approval process for biotech products in light of long-term environmental and health safety issues, I **implore** you to support **mandatory** rather than voluntary, **industry labeling of foods containing genetically engineered ingredients**. Consumers have the right to know and choose what is in our food, and companies must be required to inform us of all ingredients, transgenic or not.

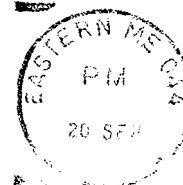

Sincerely,

*Mary Katherine Libbey*
